

Initial Teacher Education Students on Practicum Placement —Privacy notice for collection of vaccination status information

This privacy notice relates to the University's collection of health information about the vaccination status of initial teacher education (ITE) students on practicum placement.

We need to collect information that identifies you and information about your vaccination status, including the dates you were vaccinated. We have limited the information collected to that which is necessary for the purpose of managing your practicum placement as part of your programme of study.

We will use the information you provide in the form only to coordinate your practicum placement, and meet the requirements of the Ministry of Education, Boards of Trustees, the principals of kura and schools and the managers of early learning services to ensure that students on practicum placement do not pose a risk to those who work and learn in kura, schools and early learning centres. This will include disclosing information about your specific vaccination status to the relevant practicum provider prior to the commencement of a practicum placement. We will not use or share this information in any other way, unless this is permitted or required by law.

While you do not have to provide us with the information requested, not doing so will mean:

- The University will not be in a position to advise the practicum provider that you have had the vaccinations required to attend the practicum placement
- The practicum provider will not therefore be able to accept you on the practicum placement
- You will not meet the prescribed practicum requirements
- You will not therefore be able to meet the requirements of the programme.

You can find more information about the way the University manages personal information in the University's Privacy Statement, including how to access or correct the personal information we hold about you, and how we keep it secure. [University privacy statement](#)
